TRAVEL TO YYT – St. John's

When making travel arrangements for St. Johns, Newfoundland and Labrador please remember the airport code is YYT. There is another City in Canada (approximately 1,000 km from the OCEANS'14 host city) called Saint John, New Brunswick and in the past people travelling have mistaken our city for the other. So please ensure you or your travel arranger makes the correct choice, remember YYT. If you have any questions relating to travel to St. John's – YYT please feel free to contact Cathy Hogan, OCEANS'14 Project Manager – cathy.hogan@oceans14mtsieestjohns.org, remember we are just one stop away from all major Centre's. Please visit the website at <http://www.oceans14mtsieestjohns.org/main.cfm/CID/4/TravelAccommodations/> for a complete listing of airlines and view the "Map" on the routes to YYT. See you in September !
